

# COUNTRYSIDE VETERINARY CLINIC

March 5, 2001

To Whom It May Concern:

I purchased the Com Air Eagle 2500 unit through Ms. Elaine Thompson of EcoQuest in November of last year.

It has been an excellent investment for odor control around my veterinary clinic – also keeps the air fresh and ionized!

I was especially impressed with the unit on a couple of occasions, when we relied on it to remove such noxious odors as skunk spray, and odor from decomposing animal remains which were brought to us to be disposed of...

I would highly recommend this unit for air purification and odor control. Any other questions I would be happy to answer.

Sincerely yours,
