*Mr. Ed Howse,*

*I wanted to take a minute to thank you for your help with the air purification systems that I purchased from you.*

*As a Respiratory Therapist I was somewhat reluctant to buy into some of the scientific claims made by Ecoquest with their air purification systems. However, after looking at the proof provided through the use of the petri dishes before and after installing your product I became a believer. It was not until after we had a back up of the septic tank into our new home that I really came to appreciate the product. It helped make a very difficult time much more tolerable. It helped eliminate odors and any worry about contamination once the contaminated flooring was removed. We have been running the HVAC systems in both of our units and have utilized a Ecobox when needed.*

*Once again thank you for all your help! Please feel free to use me as a reference to how well your products work in the future.*

*Best Regards,*
