To Whom It May Concren:

May this letter serve as recommendation for anyone who is contemplating purchasing the EcoQuest Purifier System. I found the Purifier to be an essential for my household.

Upon testing the EcoQuest Purifier, I was convinced! I am an avid cook and the purifier got rid of any foul odors during and after the preparation of meals. I love to cook seafood, but I don't love the smell of all the different types of seafood. The purifier absolutely got rid of all seafood odors! I found that even the smell of onions, salmon and chitterlings were eliminated very quickly. The air in the kitchen and the rest of the house was back to normal in a matter of minutes.

I certainly recommend this purifier to anyone who may be in need of clean air! I have owned other brands of purifiers but none even compare to the intensity of the EcoQuest Purifier System.

Sincerely,

A handwritten signature in black ink, appearing to read 'Wendell J. Naylor', with a long horizontal flourish extending to the right.
