

(EMAIL)

Papaw, just wanted to give you my thoughts on LaundryPure so far. I REALLY love it. No doubt:

1. Clothes are MUCH softer – particularly notice this in the boy's jeans.
2. Towels are fluffier – have difficulty fitting all the towels in cabinet where they formerly fit just fine.
3. Definitely saving on detergent!! I'll calculate savings this month for you. It is exciting to know that I will never have to buy laundry detergent or fabric softener ever again.
4. I DO have to pre-treat stains, (Blaire's bibs, boy's football pants, etc.). BUT I just spray on a pre-treater. Haven't needed to "scrub" items. For example, I just sprayed mud/dirt stains, let set for 10 minutes and threw football pants in. They came out looking great. Last game, before LaundryPure, IT TOOK ME 3 TRIES, spraying, scrubbing and using hot water with detergent and a bit of bleach to get the same results.
5. With white towels, I did include a little bleach (much, much less than normal!!), probably out of habit more than anything. I am happy with the brightness, cleanliness and fluffiness of towels.
6. Clothes seem less wrinkled due to softness and jeans are definitely less wrinkled.

I AM THRILLED WITH THE RESULTS!! I am washing all sheets in the house now so I will be able to Give an opinion about different type of sheets and thread counts.

THANK YOU SO MUCH for our LaundryPure!! I'm loving it.

Love, Bethany
