

09-17-09

Hey guys,

We have to let you know just what Vollara supplementation has done for us! My husband has suffered with chronic back pain for seven and a half long years. He has had 4 major surgeries, the last one being another fusion. Since the surgery, he regressed, wearing a brace, using a cane, and enduring pain that was as bad, if not worse than before the surgery. The neurosurgeon talked about using a morphine pump or possibly more surgery. Rob started taking Re:Fuel and Re:Flex according to the directions on the bottle. Someone mentioned that for chronic pain more Re:Flex should be taken, that it wouldn't hurt him, it was all natural, so my husband increased the amount. He started taking 4 capsules 3 times a day. To our amazement he has steadily shown improvement! Now he no longer wears the brace or walks with the cane and the constant nerve pain in his leg is gone! I should mention that Rob was taking 8-10 Vicodin, and 8-10 Robaxin a day, and after seven and a half years of medication, he is now drug free!! Rob's neurosurgeon was very impressed with his dramatic improvement. So impressed, he ordered the product for his wife, who is also a back surgery patient, that has now found pain relief using Re:Flex!

We have prayed for relief for him for seven and a half years, and with each surgery our hope would diminish. We lost our hope and could not dream, but now we are able to dream again (PRAISE GOD!!!) We believe that God truly sent these products to us, for more than this Awesome Financial opportunity, but also an opportunity to live again!

Sincerely,  
Rob and Cindy Irwin
